About Nexstim Plc

Nexstim is a medical technology company focused on the development and commercialization of its world-leading SmartFocus™ TMS technology, a non-invasive brain stimulation system for the treatment of Major Depressive Disorder (MDD). The Company’s proprietary Navigated Brain Therapy (NBT®) system, a highly sophisticated 3D navigation, is the only personalised, navigated transcranial
magnetic stimulation (TMS) approach providing accurate targeting of the TMS to the specific area of the brain associated with MDD.

Nexstim’s NBT® system has been launched in the US for the treatment of MDD following clearance from the FDA for marketing and commercial distribution for this indication. The NBT® system is CE marked in Europe for the treatment of major depression and chronic neuropathic pain.

In addition, Nexstim is commercialising its Navigated Brain Stimulation (NBS) system for diagnostic applications, based on the same technology. The NBS system is the only FDA cleared and CE marked navigated TMS system for pre-surgical mapping of the speech and motor cortices of the brain.

Nexstim shares are listed on the Nasdaq First North Finland and Nasdaq First North Sweden. For more information please visit www.nexstim.com.
