PRESS RELEASE FOR IMMEDIATE RELEASE

SCS Global Services Now Approved by Allergy Standards to Offer the **asthma & allergy friendly®** Certification

DUBLIN, Ireland. (December 3, 2018) – [Allergy Standards Limited](#) is delighted to announce that [SCS Global Services](#) is now approved to offer the **asthma & allergy friendly®** Certification.

SCS Global Services is a global leader in third-party environmental and sustainability certification and is an innovator in the field of indoor air quality. This great initiative with SCS Global Services will then further expand the Certification Program internationally but also strengthen the scientific leadership of the Certification Program.

*“This initiative will be catalytic for the certification,” said ASL CEO Dr. John McKeon. “SCS is an innovator in the field of indoor air quality and a marketplace leader in certification. Its global scope and credibility make SCS the ideal certification body to bring the **asthma & allergy friendly®** certification to more products in more countries.”*

All products and services CERTIFIED **asthma & allergy friendly®** have passed strict scientific standards and are scientifically proven to improve the indoor air quality. The **asthma & allergy friendly®** Certification Program allows companies to then confidently ensure consumers that their products are suitable for those suffering from allergies and asthma, improving their indoor air quality.

SCS Global Services’ expertise in sustainability and its engagement towards advancing the goals of sustainable development reinforces Allergy Standards’ commitment to a sustainable and prosperous future through the development of greener and healthier communities worldwide.

*“Globally, there is an opportunity for manufacturers to access the growing consumer market for healthier products,” said SCS Vice President of Corporate Sales and Marketing Stanley Mathuram. “**asthma & allergy friendly®** is a robust certification, and a mark that consumers trust. We are pleased to add it to our portfolio of services.”*

“SCS’s depth of knowledge about product manufacturing and supply chains, combined with the breadth and reputation of ASL’s standards, should help companies deliver qualified products to the business and residential markets,” he added.

About Allergy Standards

Allergy Standards Limited (ASL) is an independent, global certification company, that creates scientific standards for testing a wide range of products and services to determine their impact on improving indoor air quality. ASL has designed a series of unique testing protocols and suitability specifications for products to achieve in order to be **CERTIFIED asthma & allergy friendly®**. ASL's mission is to help people create the healthiest possible indoor environment through science, certification, education and innovation.
