

DLT Solutions Partners with CA Technologies to Distribute Innovative Software to the Public Sector

DLT Now a Public Sector Distributor of CA Technologies Solutions.

HERNDON, Va. (June 28, 2018) - [DLT Solutions](#), an award winning, public sector technology leader, today announced a new partnership with [CA Technologies](#) (NASDAQ: CA) to deliver innovative software and applications to the public sector. DLT will be joining CA Technologies as a tier one partner and will be added as a distributor to the public sector.

"DLT is proud to be partnered with CA Technologies to offer new, industry leading software and services to the public sector. We are thrilled at the opportunity to continue to accelerate CA Technologies' public sector growth by delivering software and services critical to government objectives," DLT president Brian Strosser commented.

"Success in the Public Sector requires strong teaming, commitment and collaboration. The DLT partnership exemplifies CA's continued commitment and investment in the partner community, and further accelerates our ability to drive transformative outcomes with our government partners," stated Roy Borden, vice president, Partner Sales at CA Technologies.

DLT and CA Technologies bring more than 60 years of combined experience helping to drive mission success through innovative thinking, reliable execution and efficient delivery of solutions. With this contract, DLT will act as distributor for CA Technologies' entire suite of products and services to all levels of the public sector, ensuring customers have the best options for Big Data, Analytics and Data Science, Cybersecurity, Cloud, Application Lifecycle, Mobility, IT Consolidation, Virtualization, and IT Management solutions.
