Aino Health signs agreement with leading wholesaler

Aino Health has signed an end user agreement providing Aino HealthManager to one of the largest grocery wholesalers in Finland, with over 20 percent of the market share. The agreement encompasses over 500 new subscriptions to Aino’s SaaS solution HealthManager.

For the client, one of Finland’s largest grocery wholesalers, access to HealthManager means that the company gets a powerful tool for analysing sick leave, with the goal of developing more proactive corporate healthcare.

- It is gratifying that we have now also signed an agreement with yet another large retailer in Finland. This proves that our services meet the requirements that companies in retail have, says Markku Pitkänen, head of Aino Health Finland.

The project of installing the SaaS solution HealthManager will be initiated on 29 November 2018.
