

Galapagos increases share capital through warrant exercises

Mechelen, Belgium; 20 June 2018, 22.01 CET; regulated information – Galapagos NV (Euronext & NASDAQ: GLPG) announces a share capital increase arising from warrant exercises.

Galapagos issued 102,801 new ordinary shares on 20 June 2018, for a total capital increase (including issuance premium) of €1,337,017.89.

Pursuant to the warrant exercise program of Galapagos' executive committee, executive committee members automatically are committed to exercise a minimum number of warrants, subject to certain conditions. In accordance with the rules of this program, CEO Onno van de Stolpe exercised 15,000 warrants. Three other executive committee members exercised an aggregate number of 45,000 warrants. In addition to Onno van de Stolpe, one other member of our board of directors exercised an aggregate number of 5,400 warrants.

In accordance with Belgian transparency legislation¹, Galapagos notes that its total share capital currently amounts to €277,679,082.33, the total number of securities conferring voting rights is 51,337,763, which is also the total number of voting rights (the "denominator"), and all securities conferring voting rights and all voting rights are of the same category. The total number of rights (warrants) to subscribe to not yet issued securities conferring voting rights is 3,557,822, which equals the total number of voting rights that may result from the exercise of these warrants. Galapagos does not have any convertible bonds or shares without voting rights outstanding.

About Galapagos

Galapagos (Euronext & NASDAQ: GLPG) is a clinical-stage biotechnology company specialized in the discovery and development of small molecule medicines with novel modes of action. Galapagos' pipeline comprises Phase 3 through to discovery programs in cystic fibrosis, inflammation, fibrosis, osteoarthritis and other indications. Our target discovery platform has delivered three novel mechanisms showing promising patient results in, respectively, inflammatory diseases, idiopathic fibrosis and atopic dermatitis. Galapagos is focused on the development and commercialization of novel medicines that will improve people's lives. The Galapagos group, including fee-for-service subsidiary Fidelta, has approximately 640 employees, operating from its Mechelen, Belgium headquarters and facilities in the Netherlands, France, Switzerland, the US and Croatia.
