

Nordic American Offshore Ltd. (NYSE: NAO) – Employment in West Africa

Hamilton, Bermuda, August 14, 2018

Dear Shareholders,

Under reference to our 2Q2018 report of Friday August 10, 2018, this is to advise you that a firm contract of close to 3-months have been arranged for a NAO platform supply vessel in West Africa. The supply vessel shall serve a Scandinavian owned drilling rig.

This is the first time we have secured NAO employment outside the North Sea. Going forward, we will consider employment of this nature.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Matters discussed in this press release may constitute forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides safe harbor protections for forward-looking statements in order to encourage companies to provide prospective information about their business. Forward-looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts.

The Company desires to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 and is including this cautionary statement in connection with this safe harbor legislation. The words "believe," "anticipate," "intend," "estimate," "forecast," "project," "plan," "potential," "may," "should," "expect," "pending" and similar expressions identify forward-looking statements.

The forward-looking statements in this press release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, our management's examination of historical operating trends, data contained in our records and other data available from third parties. Although we believe that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, we cannot assure you that we will achieve or accomplish these expectations, beliefs or projections. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward-looking statements include the strength of world economies and currencies, general market conditions, including fluctuations in charter rates and vessel values, changes in demand in the PSV market, as a result of changes in the general market conditions of the oil and natural gas industry which influence charter hire rates and vessel values, demand in platform supply vessels, our operating expenses, including bunker prices, dry docking and insurance costs, governmental rules and regulations or actions taken by regulatory authorities as well as potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, the availability of financing and refinancing, vessel breakdowns and instances of off-hire and other important factors described from time to time in the reports filed by the Company with the Securities and Exchange Commission.
