In our biggest category, the handmade cigars, we continue to deliver healthy growth rates - and I'm particularly pleased to see the integration of Thompson Cigars running as planned and to report solid sales growth in Thompson Cigars in the first full quarter after the acquisition. Also, the strong momentum in our "other" category continued while we in the machine-made cigars category still see declining volumes driven by the new excise structures in France".

## Financial performance

In Q2 2018, the reported net sales of handmade cigars increased by 27\% to DKK 661 million (DKK 519 million) primarily due to the impact of the acquisition of Thompson Cigars. The organic net sales growth was up by $6.9 \%$ after adjusting for the acquisition effect and a negative exchange rate impact of almost $6 \%$. The organic growth was driven by a volume impact of $1.3 \%$ and a price/mix impact of 5.6\%.

Both Cigars International and Thompson Cigars delivered organic volume growth, whereas General Cigar experienced lower volume growth than in previous quarters due to inventory reduction in some sales channels. The sales of premium cigars outside the US experienced a small decline caused by the excise increase in France.

The positive price/mix for the category was driven by healthy price developments across all our businesses as well as reduced promotional activities in our online business.

Gross profit in Q2 2018 increased by DKK 52 million to DKK 268 million (DKK 216 million) driven by the impact of Thompson Cigars, increased net sales and underlying margin improvements. The adjusted gross margin was $40.6 \%$ (41.6\%) reflecting lower margins from Thompson Cigars. The gross margin improved by more than 1\%-point compared to Q2 2017 when excluding the effect from Thompson Cigars.

Reported net sales for H1 2018 were DKK 1,032 million (DKK 920 million) and the organic growth was $6.8 \%$. Gross profit for H1 2018 was DKK 421 million (DKK 387 million) and the adjusted gross margin was $40.8 \%$ (42.1\%).

## Business update

Cigars International has during Q2 2018 continued to regain momentum with good organic growth rates. The key performance indicators are improving as our focus to restore our high quality customer service is progressing well.

During Q2 2018, Thompson Cigars delivered positive organic growth compared to Q2 2017. The category gross margins have - as expected - been somewhat diluted by the relatively lower margins coming from Thompson Cigars. The process of improving gross margins and reducing the level of operating expenses in Thompson Cigars has commenced and follows the plans. We expect the full integration of Thompson Cigars to be completed by the end of 2019.

Cigars International expects to open its first cigar super store in Texas in Q4 2018. The opening of the second super store in Texas has been postponed to mid-2019.

## Financial performance

In Q2 2018, reported net sales of machine-made cigars declined by 3\% to DKK 618 million (DKK 635 million). Adjusted for the previously announced reclassification of import duties in selected markets, acquisition effects and exchange rate developments, organic growth was negative by $2.4 \%$. Volume impact was negative by $3.8 \%$ and the price/mix impact was $1.3 \%$.

The volume decline was primarily driven by the development in France and Belgium. Price/mix for the category was driven by solid underlying price increases in most markets.
Gross profit in Q2 2018 increased by 10\% to DKK 333 million (DKK 303 million), primarily due to lower non-recurring costs than in Q2 2017. The adjusted gross margin was 53.9\% (51.6\%). Adjusted for the announced reclassification of import duties in selected markets and acquisition effects, the Q2 2018 adjusted margin was up versus Q2 2017. The "like-for-like" improvement of the margin was mainly driven by the efficiency programmes that were completed by the end of 2017.

Reported net sales for H1 2018 were DKK 1,090 million (DKK 1,158 million) and the organic growth was negative at $1.8 \%$. Gross profit for H1 2018 was DKK 582 million (DKK 563 million) and the adjusted gross margin was $53.3 \%$ (51.2\%).

## Business update

In France, the market continued to be negatively impacted by the excise increase and the final consumer reaction still remains uncertain. However, the decline rate in volumes has improved compared to Q1 2018. In the market segments, where we have the strongest positions, the impact has been relatively large, but through an ongoing strengthening of our product portfolio, we expect to minimise the long-term impact on our market shares.

In the UK, we continue to gain market share driven by our value for money brand Moments. In Belgium, we maintain our market share, although the market was somewhat down in Q2 2018 compared to a strong Q2 2017. For H1 2018 total volumes in Belgium were slightly up. Canada has also maintained a good underlying momentum in net sales.

## Financial performance

In Q2 2018, reported net sales declined by $16 \%$ to DKK 113 million (DKK 134 million). Adjusted for the previously announced reclassification of import duties in selected markets and exchange rate developments, organic growth was negative at $9.4 \%$. Volume impact was negative at $18.0 \%$ and the price/mix impact was $8.6 \%$.

The negative volume development was driven by the structural market development, lower shipments to the Middle East and Africa as well as a weak development in our US business. Price/mix for the category was driven by a positive mix impact and healthy price increases in most key markets.

Gross profit in Q2 2018 was down by 21\% to DKK 66 million (DKK 84 million) driven by the net sales development. The adjusted gross margin was $58.6 \%$ (63.0\%). Adjusted for the announced reclassification of import duties in selected markets, the Q2 2017 adjusted margin was $66.2 \%$. The decline in the "like-for-like" adjusted gross margin was driven by lower production volumes despite a healthy price/mix.

Reported net sales for H1 2018 were DKK 228 million (DKK 266 million) and the organic growth was negative at $5.8 \%$. Gross profit for H1 2018 was DKK 134 million (DKK 163 million) and the adjusted gross margin was $58.9 \%$ ( $61.7 \%$ ).

## Business update

In the Middle East, consumption of pipe tobacco continues to decline and in Nigeria, although the consumption of pipe tobacco is stable, the volumes have been impacted by a reduction of inventories at our distributor in the market.

## Financial performance

In Q2 2018, reported net sales declined by 5\% to DKK 141 million (DKK 148 million). Adjusted for the previously announced reclassification of import duties in selected markets and exchange rate developments, organic growth was negative at $0.9 \%$. Volume impact was negative at $2.6 \%$ and the price/mix impact was $1.7 \%$.

The volume development was negative as a positive contribution from Norway could not compensate for a negative impact from the US. Price/mix was strong for most important markets with the exception of Germany.

Gross profit in Q2 2018 was down by DKK 5 million to DKK 83 million (DKK 88 million), primarily driven by the decline in net sales. The adjusted gross margin was $58.7 \%$ ( $60.3 \%$ ). Adjusted for the reclassification of import duties in selected markets, the Q2 2017 adjusted margin was $61.6 \%$. The decline in the "like-for-like" adjusted gross margin was primarily driven by Germany.

Reported net sales for H1 2018 were DKK 247 million (DKK 274 million) and the organic growth was negative at $4.2 \%$. Gross profit for H1 2018 was DKK 141 million (DKK 161 million) and the adjusted gross margin was $57.0 \%$ (59.0\%).

## Business update

The shipments to Norway have - as expected - recovered during the past months following the temporary drop in shipments in Q1 2018. We are gaining market shares in a total market that continues to decline. The impact following the introduction of plain packaging remains uncertain.

In Germany an increased level of price competition and promotional activities have had a short-term adverse impact on the category price/mix, but we expect to see a gradual normalisation going forward.

## Financial performance

In Q2 2018, reported net sales increased by 4\% to DKK 248 million (DKK 237 million). Adjusted for the exchange rate developments, organic growth was $5.3 \%$.

Organic net sales growth was driven by our sales of accessories and other tobacco products, whereas we experienced a decline in contract manufacturing and distribution.

Gross profit in Q2 2018 increased by DKK 8 million to DKK 103 million (DKK 95 million) driven by the increase in net sales. The adjusted gross margin was $41.5 \%$ ( $40.0 \%$ ) reflecting favourable mix changes.

Reported net sales for H1 2018 were DKK 466 million (DKK 434 million) and the organic growth was 11.3\%. Gross profit for H1 2018 was DKK 188 million (DKK 160 million) and the adjusted gross margin was 40.2\% (36.9\%).

## Business update

The category comprises of four sub-categories: Contract manufacturing of cigars, pipe tobacco and fine-cut tobacco products to third parties, sales of tobacco related accessories and fire lighting products, distribution of lighters, matches, sale of chewing tobacco to third parties in Australia, Canada and certain EU-countries as well as licensing income from STG brands to third parties. Contract manufacturing accounts for approximately $30 \%$ and sales of accessories and fire lighting products for approximately $40 \%$ of the category's net sales.

Europe accounts for about 40\%, Americas for about 35\% and rest of world (primarily Australia) for about $25 \%$ of net sales.

Organic growth in net sales in the category is driven by the successful expansion of third party production of tobacco products and sales of accessories and fire products. Net sales can fluctuate a lot quarter-by-quarter. The improved profitability in recent years has been driven by mix changes between the sub-categories, contract pruning and generally improved pricing.

## Events after the reporting period

In July, we acquired Peterson Pipe Tobacco, a small Irish pipe tobacco business. Among the Peterson's products are premium brands like Sherlock Holmes, Old Dublin and Connoisseur's Choice. The expected impact on 2018 performance is immaterial.

No events which are expected to have material impact on the financial position of the Group have occurred after 30 June 2018.

## Financial guidance for 2018

We maintain our full-year guidance for 2018

- Organic net sales growth flat to slightly positive
- Organic EBITDA growth $>3 \%$
- Ordinary dividend for 2018 > 2017 (DKK 575 million)

Other financial expectations are:

- Financial expenses, exclusive of currency gains/losses, are expected to be in the range of DKK 80-90 million
- The effective tax rate is expected to be in the range of $22-23 \%$
- Capital expenditure is expected to be in the level of DKK 175 million (previously DKK 215 million)

Organic growth in EBITDA is expected to be impacted by a strong comparison base in the third quarter of last year whereas the fourth quarter has a less difficult comparison base.

## NOTES

## NOTE 1

## BASIS OF PREPARATION

The unaudited interim report has been prepared in accordance with IAS 34 and additional Danish disclosure requirements for listed companies.

## Significant accounting estimates

The estimates made by STG in the determination of the carrying amounts of assets and liabilities are based on assumptions that are subject to future events. For a description of risks and accounting estimates, see the Annual Report for 2017.

## Accounting policies

The interim report has been prepared in accordance with the accounting policies set out in the Annual Report for 2017 and with the implementation of IFRS 15 'revenue from contracts with customers' as also described in the Annual Report for 2017, note 1.2. IFRS 15 replaces the current standards on revenue (IAS 11 'Construction Contracts' and IAS 18 'Revenue').

The implementation of IFRS 15 has not resulted in any changes to the Group's accounting policies, but only a change to the classification of import duty in selected markets since it is perceived equal to normal excise but previously recognised in both net sales and cost of goods sold. From 1 January 2018 net sales have been recognised exclusive this "excise like" import duty.

The modified retrospective method has been applied at implementation where comparison numbers have not been restated. The impact on the Consolidated Financial Statements for H1 2018 is a reduction of both net sales and COGS of DKK 59.4 million, a reported gross margin improvement of $0.9 \%$-point and an EBITDA margin improvement of $0.3 \%$-point. The reclassification has no impact on reported or adjusted gross profit or EBITDA.

## NOTE 4

## BUSINESS COMBINATIONS

With effect from 2 April 2018, STG acquired, in an asset deal, the business of Thompson and Co. of Tampa, a leading US Online Cigar Retailer. The total consideration transferred is paid in cash. Final net working capital statement may result in an adjustment to the consideration transferred. The accounting for the business combination is considered provisional as the acquisition was only completed on 2 April 2018.

## Thompson and Co. of Tampa

Thompson is a leading online retail cigar business in the US, a market where approximately two thirds of all handmade cigars are sold online. A family-owned business, Thompson was founded in 1915 and is based in Tampa, Florida. It has annual net sales of around DKK 600 million and 185 employees. Thompson provides STG access to established, recognised and appreciated auction and retail websites, a substantial and attractive customer base, as well as a retail store and a call centre facility in Tampa and strengthens STG position in the online retail cigar channel in the US.

Fair value of acquired net assets and recognised goodwill
Net assets and goodwill are provisional and may be adjusted and off-balance sheet items may be recorded within the 12 months period of the acquisition date in compliance with IFRS 3. Net assets have been adjusted to comply with STG's accounting policies and financial reporting requirements.

The provisional calculated goodwill relates to synergies from merging the business into the existing internet and catalogue business in the US including optimisations within sales, marketing and procurement, workforce and business expertise.

## Impact on Consolidated Income Statement

Q2 2018 Interim Report includes net sales of DKK 188 million with a net profit of DKK 0 million from the acquisition. On a proforma basis, if the acquisition had been effective from 1 January 2018 the business of Thompson would to H1 2018 have contributed DKK 325 million to net sales (gross DKK 335 million offset by STG's sales to Thompson in Q1 2018) and an immaterial impact on net profit.

## Transaction costs

Total transaction costs related to the acquisition amounts to DKK 6 million, of which DKK 2 million was recognised in 2017 Financial Statements and DKK 3 million in Q1 2018 Interim Report and DKK 1 million in Q2 2018 Interim Report. Transaction costs are recognised in 'Other External costs'.
