Report of the Board of Directors and the CEO

Landsbankinn is a leading provider of financial services in Iceland, offering a comprehensive range of financial products and services to individuals, corporates and institutional customers. The Condensed Consolidated Interim Financial Statements of Landsbankinn hf. (the "Bank" or "Landsbankinn") for the first six months of 2017 include the Bank and its subsidiaries (collectively referred to as the "Group").

Operations

Consolidated profit amounted to ISK 12,653 million for the first six months of the financial year 2017. Consolidated total equity amounted to ISK 238,944 million and total assets to ISK 1,170,628 million at the end of this period.

The total capital ratio of the Group, calculated according to the Act on Financial Undertakings, was 27.60% at the end of the second quarter of 2017.

Risk factors

The overall credit risk profile of the Bank's loan portfolio has been stable in the first half of 2017. Loan impairments are expected to remain low because of ongoing efforts to improve credit quality and expectations of continued favourable macroeconomic conditions.

The Group's Liquidity coverage ratio (LCR) was 183% and the Group's Net stable funding ratio (NSFR) in foreign currency was 169% as at June 30 2017. The Group's liquidity and funding ratios are above minimum regulatory requirements and within the Bank's risk appetite.

Outlook

Landsbankinn Economic Research has recently updated its economic forecast for the next three years. It is forecasted that economic growth will be 6.7% in 2017, 3.5% in 2018 and 2.6% in 2019. Inflation is forecasted to be slightly above target in the fourth quarter this year and in the first quarter next year, but is otherwise expected to remain below target in the forecast period. One of the key assumptions for favourable inflation forecasts is the assumption that the króna will continue to appreciate over the next few years, but this prerequisite is based on expectations of a significant surplus continuing on trade in goods and services.

The Bank continues to focus on the execution of its strategy to ensure sustainable, long-term profitability. Profit in the second quarter of 2017 is lower than in the second quarter of the previous year, nevertheless first half 2017 profit increased year-over-year and the outlook for the full year remains positive.

Other matters

In June 2017, the Bank concluded a settlement with the Icelandic Competition Authority on measures to spur competition in retail banking services. The main goals with the measures are: 1. Reduce costs charged to customers when they switch retail banks. 2. Make it easier and more efficient for individuals and small companies to shop around for financial services and thus exert greater competitive discipline on those offering retail banking services. 3. Counter conditions that may facilitate tacit collusion in the market for retail banking services.

Statement by the Board of Directors and the CEO

The Condensed Consolidated Interim Financial Statements of Landsbankinn hf. for the six months ended 30 June 2017 have been prepared on a going-concern basis in accordance with International Financial Reporting Standards as adopted by the European Union.

In our opinion, the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. give a true and fair view of the consolidated financial performance of the Group for the first six months of 2017, its consolidated financial position as at 30 June 2017 and its consolidated cash flows for the first six months of 2017.

Furthermore, in our opinion, the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. describe the principal risks and uncertainties faced by the Group.

The Board of Directors of the Bank and Chief Executive Officer hereby endorse the Condensed Consolidated Interim Financial Statements of Landsbankinn hf. for the six months ended 30 June 2017.

Independent Auditor's Review Report

To the Board of Directors and Shareholders of Landsbankinn hf.

Introduction

We have reviewed the accompanying Condensed Consolidated Statement of Financial Position of Landsbankinn hf. (the Bank) as at 30 June 2017 and the related Condensed Consolidated Income Statement, Condensed Consolidated Changes in Equity and Condensed Consolidated Cash Flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and presentation of these Condensed Consolidated Interim Financial Statements in accordance with International Financial Reporting Standard IAS 34 "Interim Financial Reporting" as adopted by the European Union. Our responsibility is to express a conclusion on these Condensed Consolidated Interim Financial Statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Condensed Consolidated Interim Financial Statements do not give a true and fair view of the financial position of the Bank as at 30 June 2017, and of its financial performance and its cash flows for the six-month period then ended in accordance with IAS 34 "Interim Financial Reporting" as adopted by the European Union.

Notes to the Condensed Consolidated Interim Financial Statements

General

1. Reporting entity

Landsbankinn hf. (hereinafter referred to as the "Bank" or "Landsbankinn") was founded on 7 October 2008. The Bank is a limited liability company incorporated and domiciled in Iceland. The Bank operates in accordance with Act No. 161/2002. The Bank is subject to supervision of the Financial Supervisory Authority (FME) in accordance with Act No. 87/1998, on Official Supervision of Financial Activities. The registered address of the Bank's office is Austurstræti 11, 155 Reykjavík.

The Condensed Consolidated Interim Financial Statements of the Bank for the six months ended 30 June 2017 include the Bank and its subsidiaries (collectively referred to as the "Group" and individually as "Group entities"). The Group's primary lines of business are corporate and personal banking, markets, asset management and other related services. The Group operates solely in Iceland.

The issue of these Condensed Consolidated Interim Financial Statements was authorised by the Board of Directors and the CEO of the Bank on 27 July 2017.

2. Basis of preparation

Statement of compliance

These Condensed Consolidated Interim Financial Statements for the six months ended 30 June 2017 have been prepared in accordance with International Accounting Standard (IAS) 34 "Interim Financial Reporting", as adopted by the European Union.

The Condensed Consolidated Interim Financial Statements do not include all the information required for full annual financial statements and should be read in conjunction with the Consolidated Financial Statements of the Group as at and for the year ended 31 December 2016, which are available on the Bank's website, www.landsbankinn.is.

Going concern

The Bank's management has assessed the Group's ability to continue as a going concern and it has a reasonable expectation that the Group has adequate resources to continue its operations. Accordingly, these Condensed Consolidated Interim Financial Statements have been prepared on a going concern basis.

Basis of measurement

The Condensed Consolidated Interim Financial Statements have been prepared on a historical cost basis except for the following:

- Financial assets and liabilities classified as held for trading are measured at fair value;
- Financial assets and liabilities designated at fair value through profit or loss are measured at fair value;
- Non-current assets and disposal groups classified as held for sale are measured at the lower of cost or fair value less costs to sell.

Functional and presentation currency

The functional currency of the Bank and its individual Group entities is Icelandic króna (ISK) and all amounts are presented in Icelandic króna (ISK), rounded to the nearest million unless otherwise stated.

Use of estimates and judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

3. Significant accounting policies

The Condensed Consolidated Interim Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances. The accounting policies applied in the Condensed Consolidated Interim Financial Statements are the same as those applied in the Consolidated Financial Statements as at and for the year ended 31 December 2016. The accounting policies applied have been applied consistently to all periods presented.

The Group has adopted the amendments to existing standards which became effective as of 1 January 2017. These amendements have an insignificant impact on the Condensed Consolidated Interim Financial Statements.

3. Significant accounting policies (continued)

Towards the end of the first quarter of 2017, the Group started applying fair value hedge accounting. The Group uses interest rate swaps to hedge its exposure to changes in the fair values of some of its issued euro medium term notes (EMTN). Such interest rate swaps are matched to specific issuances of the EMTN fixed-rate notes. The change in fair value of interest rate swaps together with change in the fair value of bonds attributable to interest rate risk is recognised immediately in profit or loss in the line item "Net gain (loss) on fair value hedges". Accrued interests on both bonds and swaps are included in the line item "Interest expense".

The Group uses other derivatives, not designated in a qualifying hedge relationship, to manage its exposure to foreign currency, interest rate, equity market and credit risk. The financial instruments used include, but are not limited to, interest rate swaps, cross-currency swaps, forward contracts, futures, options, credit swaps and equity swaps.

On initial designation of the hedges, the Group formally documents the relationship between the hedging instruments and hedged items, including the risk management objective and strategy in undertaking the hedge, together with the method that will be used to assess the effectiveness of the hedging relationships. The Group makes an assessment, both at the inception of the hedge relationships and on an ongoing basis, of whether the hedging instruments are expected to be highly effective in offsetting the changes in the fair value of the hedged items during the period for which the hedge is designated, and whether the actual results of each hedge are within the range of 80–125%.

If the hedging derivative expires or is sold, terminated or exercised, or the hedge no longer meets the criteria for fair value hedge accounting, or the hedge designation is revoked, then hedge accounting is discontinued prospectively.

Any adjustments, up to the point of discontinuation, to a hedged item for which the effective interest method is used, is amortised to profit or loss as part of the recalculated effective interest rate of the item over its remaining life.

The Group has changed its presentation of industry sectors for loans to construction and real estate companies. Comparative amounts have been restated due to reclassification of loans to construction and real estate companies into two separate items, construction companies on the one hand and real estate companies on the other.

4. Operating segments

Business segments are presented in accordance with internal reporting to the CEO and the Board of Directors, who are responsible for allocating resources to the reportable segments and assessing their financial performance.

The Group has four main business segments as at the end of the reporting period:

• **Personal Banking** provides financial services through the Bank's branch network to individuals and to small and medium-size businesses outside the capital city region.
• **Corporate Banking** provides financial services to corporate clients and to small and medium-size businesses in the capital city region.
• **Markets** provides brokerage services in securities, foreign currencies and derivatives, securities offerings and advisory services. Markets also handles market making for listed securities and foreign currencies. Markets provides a range of wealth and asset management products and services for individuals, corporations and institutional investors. Landsbréf hf., a subsidiary of the Bank, is included in Markets as an operating segment.
• **Treasury** incorporates the Bank's funding and liquidity management, market making in money markets, and determines the Bank's internal pricing. Treasury also manages the Bank's exchange rate, interest rate and inflation risks, within limits that are set by the Board of Directors. The Bank allocates capital to the operating segments based on the Bank's target for a total capital ratio.

Support functions are comprised of Finance (excluding Treasury), Risk Management, Operations & IT, and the CEO's Office, whereby the CEO's Office is comprised of Human Resources, Marketing & Communications and Compliance. The Bank's Internal Audit department is also included in support functions; however, it is independent and reports directly to the Bank's Board of Directors.

Reconciliation consists of eliminations and transactions that cannot be allocated to any one segment.

Administrative expenses of the Group's support functions are allocated to appropriate business segments based on the underlying cost drivers. Expenses are allocated to the business units at market price level. Support functions supply services to business units and transactions are settled at unit prices or on an arm's-length basis, if possible, on the basis of use and activity.

The following table summarises each segment's financial performance as disclosed in the internal management reports on segment profits (loss) before tax. In these reports, all income statement items are reported on a net basis, including the total interest income and expense. Inter-segment pricing is determined on an arm's-length basis.

No revenue from transactions with a single external customer or counterparty amounted to 10% or more of the Group's total revenue during the period from 1 January to 30 June 2017 or in 2016.

13. Income tax

Income tax is recognised based on the tax rates and tax laws enacted by the end of the period, according to which the domestic corporate income tax rate was 20.0% (2016: 20.0%). An additional special income tax on financial institutions is recognised at a rate of 6% on an income tax base exceeding ISK 1,000 million in accordance with Act No. 165/2011, on Financial Activity Tax.

Income tax recognised in the income statement is specified as follows:

	2017 1.1-30.6	2016 1.1-30.6
Current tax expense	(2,658)	(2,978)
Special income tax on financial institutions	(666)	(716)
Difference of prior year's imposed and calculated income tax	178	-
Deferred tax expense	179	191
Total	**(2,967)**	**(3,503)**

The tax on Group profit differs to the following extent from the amount that would theoretically arise by the domestic corporate income tax rate:

		2017 1.1-30.6		2016 1.1-30.6
Profit before tax		17,240		16,326
Tax on liabilities of financial institutions		(1,620)		(1,525)
Profit before income tax		15,620		14,801
Income tax calculated using the domestic corporate income tax rate	20.0%	(3,124)	20.0%	(2,960)
Special income tax on financial institutions	4.3%	(666)	4.8%	(716)
Income not subject to tax	(6.6%)	1,035	(6.1%)	909
Non-deductible expenses	2.5%	(390)	5.4%	(796)
Other	(1.1%)	178	(0.4%)	60
Effective income tax	**19.0%**	**(2,967)**	**23.7%**	**(3,503)**

14. Tax on liabilities of financial institutions

On 31 December 2013, the Parliament of Iceland passed an amendment to Act No. 155/2010, on Special Tax on Financial Institutions, according to which financial institutions must pay annually a tax calculated as 0.376% (2016: 0.376%) of the carrying amount of total liabilities at year-end, excluding tax liabilities, in excess of ISK 50,000 million as determined for tax purposes. The special income tax on financial institutions is a non-deductible expense.

	2017 1.1-30.6	2016 1.1-30.6
Tax on liabilities of financial institutions	(1,620)	(1,525)

All amounts are in ISK million

15. Classification of financial assets and liabilities

According to IAS 39, financial assets and liabilities must be classified into specific categories which affect how they are measured after initial recognition. Each category's basis of subsequent measurement is specified below:
- Loans and receivables, measured at amortised cost;
- Financial assets and liabilities held for trading, measured at fair value;
- Financial assets designated at fair value through profit or loss, measured at fair value;
- Financial liabilities, measured at amortised cost.

The following table shows the classification of the Group's financial assets and liabilities according to IAS 39 and their fair values as at 30 June 2017:

16. Fair value of financial assets and liabilities

The fair value of financial assets and liabilities is determined based on the same valuation methods as those described in the Group's Consolidated Financial Statements as at and for the year ended 31 December 2016.

Fair value hierarchy

The Group has used a valuation hierarchy for disclosure of inputs to valuation used to measure fair value. Fair value measurements of financial instruments are made on the basis of the following hierarchy:

• Level 1: Quoted prices are used for assets and liabilities traded in active markets. Unadjusted quoted prices are used as the measurement of fair value.

• Level 2: Valuation technique based on observable inputs. The most recent transaction prices in combination with generally accepted valuation methods are used to measure fair value of shares. However, the yield of actively traded bonds with the same duration is used as a benchmark for the valuation of bonds.

• Level 3: Valuation technique based on significant non-observable inputs. It covers all instruments for which the valuation technique includes inputs based on unobservable data and the unobservable inputs have significant effect on the instrument's valuation. For unlisted shares and bonds where there is no market data available, various generally accepted valuation techniques are used to measure fair value. Valuation using discounted cash flow or a comparison of peer companies' multiples are the most commonly used methods to calculate fair value of unlisted shares in addition to recent transactions and current market conditions.

Assumptions used in the valuation technique include risk-free and benchmark interest rates for estimating discount rates, credit spreads, bonds and equity prices, foreign currency exchange rates, market multipliers, market conditions for estimating future growth and other market indicators.

Valuation framework

The Bank's Risk & Finance Committee oversees the Group's overall risk and is responsible for fair value measurements of financial assets and liabilities classified as Level 2 and 3 instruments. The Bank's Valuation group reports its valuation results to the Risk & Finance Committee for verification. The Valuation group is comprised of personnel from Risk Management, Treasury and Accounting. The Valuation group holds monthly meetings to determine the value of Level 2 and Level 3 financial assets and liabilities.

The following table shows the level in the hierarchy into which the fair value of financial assets and liabilities, carried at fair value in the Condensed Consolidated Interim Statement of Financial Position, is categorised as at 30 June 2017:

Financial assets	Level 1	Level 2	Level 3	Total
Bonds and debt instruments	54,715	8,808	71	63,594
Equities and equity instruments	12,764	-	18,170	30,934

A further description of the financial instruments categorised in Level 3 are as follows:

1. Fair value of corporate bonds and claims on financial institutions in winding-up proceedings and other insolvent assets is estimated on the basis of an analysis of the estates' financial position and expected recovery. Reference is also made to prices in recent transactions. Given the nature of the valuation method, a range of key unobservable inputs is not available.

2. Equities and equity instruments classified as Level 3 assets, are unlisted and not traded in an active market and therefore subject to unobservable inputs for fair value measurements. Valuation using discounted cash flows, comparison of peer companies' multiples, analysis of financial position and results, outlook and recent transactions are the methods or inputs used to estimate fair value of investments in equities and equity instruments. Given the nature of the valuation method, the range of key unobservable inputs is not available.

17. Unobservable inputs in fair value measurement (continued)

The effect of unobservable inputs in fair value measurement

Although the Group believes that its estimates of fair value are appropriate, the use of different valuation methodologies and assumptions could lead to different estimates of fair value. The following tables show how profit (loss) before tax would have been affected if one or more of the inputs for fair value measurements in Level 3 were changed to likely alternatives for the six months ended 30 June 2017 and 30 June 2016:

	2017 1.1-30.6		2016 1.1-30.6

The Bank holds a mandatory reserve deposit account with the Central Bank of Iceland in compliance with the Central Bank's rules on Minimum Reserve Requirements No. 870/2015, with subsequent amendments. The average balance of this account for each reserve term must be equivalent at least to the mandatory reserve deposit requirement which amounted to ISK 12,201 million for June 2017 (December 2016: ISK 11,886 million).

The Bank holds an additional amount as a mandatory reserve with the Central Bank in compliance with Article 8 of Act No. 37/2016, on the Treatment of Króna-Denominated Assets Subject to Special Restrictions. This reserve is equivalent to at least the amount of the total balance of deposits subject to special restrictions for investment held with the Group and consists of certificates of deposit issued by the Central Bank.

On 28 June 2017, the Nordic Investment Bank (NIB) and Landsbankinn hf. signed a new seven-year loan programme of USD 75 million.

On 22 June 2017, the Bank prepaid the remainder of the senior secured Bond F series in the amount of USD 160 million, together with accrued interest, and has thereby paid in full the outstanding amounts of the bonds issued by the Bank to LBI hf.

On 13 June 2017, the Bank completed a bond offering of SEK 1.000 million in senior unsecured bonds. The bonds mature in June 2020 and were issued in two tranches: SEK 700 million at a floating rate of STIBOR, plus a 1.0% margin and SEK 300 million at a fixed rate of 0.75%.

On 14 March 2017, the Bank completed issuance of EUR 300 million senior unsecured bonds. The bonds mature in March 2022, bear a fixed coupon rate of 1.375% and were priced at terms equivalent to a 130 basis point spread above mid-swaps in euros.

The new bond series, and loan agreement issued and signed during the first half of 2017, refinance the remainder of the senior secured Bond D and F series issued by the Bank to LBI hf., in addition to strengthening the Bank's liquidity further.

The senior unsecured bonds in foreign currencies are issued under the Bank's 2,000 million Euro Medium Term Note (EMTN) programme and are listed on the Irish Stock Exchange.

29. Equity

Share capital

As of 30 June 2017, ordinary shares authorised and issued by the Bank totalled 24 billion, while outstanding shares were 23.6 billion; each share has a par value of ISK 1. Each ordinary share conveys one vote at general meetings of the Bank. All share capital is fully paid up.

On 22 March 2017, shareholders at the Annual General Meeting (AGM) of the Bank for the operating year 2016 approved the Board's recommendation for the Bank to acquire own shares at the maximum of 10% of nominal value of issued share capital in accordance with Article 55 of the Public Limited Companies Act No. 2/1995. The price of each share is to be determined by the internal value of the Bank's shares, according to its most recently published results prior to the timing of the repurchase of the own shares. This authorisation applies until the next AGM in 2018 and the disposal of the own shares under this authorisation is subject to the approval of a shareholders meeting.

Share premium

Share premium represents the difference between the ISK amount received by the Bank when issuing share capital and the nominal amount of the shares issued, less costs directly attributable to issuing the new shares, net of any related tax benefit.

Statutory reserve

The statutory reserve is established in accordance with the Public Limited Companies Act, No. 2/1995, which stipulates that the Bank must allocate profits to the statutory reserve until the reserve is equal to one-quarter of the Bank's share capital.

Retained earnings

In June 2016, the Icelandic parliament passed an amendment to Act No. 3/2006, on Annual Financial Statements. The amendment entered into force immediately and applies to the financial year commencing 1 January 2016. The amendment requires, *inter alia*, the separation of retained earnings into two categories: restricted and unrestricted retained earnings. Unrestricted retained earnings consist of undistributed profits and losses accumulated by the Group since the foundation of the Bank, less transfers to the Bank's statutory reserve and restricted retained earnings. Restricted retained earnings are split into two categories:

Unrealised gains in subsidiaries and equity-accounted associates reserve; if the share of profit from subsidiaries or equity-accounted associates is in excess of dividend received, the Group transfers the difference to a restricted reserve in equity. If the Group's interest in subsidiaries or equity-accounted associates is sold or written off, the applicable amount recognised in the reserve is transferred to retained earnings.

All amounts are in ISK million

29. Equity (continued)

Retained earnings (continued)

Financial assets designated at fair value through profit or loss reserve. The Group transfers fair value changes arising from financial assets designated at fair value through profit or loss, from retained earnings to a restricted reserve. Amounts recognised in the reserve are transferred back to retained earnings upon sale of the financial asset.

Dividend

On 22 March 2017, shareholders at the Annual General Meeting (AGM) of the Bank for the operating year 2016 approved the Board's proposal to pay dividends to shareholders in the total amount of ISK 13,002 million , or ISK 0.55 per share. The dividend was paid to shareholders on 29 March 2017. The recommendation of the Board of Directors to pay an extraordinary dividend in the total amount of ISK 11,820 million on outstanding shares, or ISK 0.50 per share, was also approved by the AGM. The extraordinary dividend is payable to shareholders on 20 September 2017. These dividends are payable to shareholders listed on the shareholders' registry of Landsbankinn at end of business on the day of the AGM, 22 March 2017, unless the Bank receives notification of assignment of the dividend through the transfer of shares.

Basic and diluted earnings per share from operations (ISK)	**0.21**	**0.34**	**0.54**	**0.47**

The Bank's basic and diluted earnings per share are equal as the Bank has not issued any options, warrants, convertibles or other potential sources of dilution.

31. Litigation

The Bank and its subsidiaries are from time to time party to litigation cases which arise in the ordinary course of business. Some of these cases are material in the sense that management considers that they may have a significant impact on the amounts disclosed in the Group's financial statements and are not comparable to other, previously closed, cases. During the first and second quarter of 2017 all material cases, reported open in the litigation section of the Group's Consolidated Financial Statements for the year 2016 were closed. The following material cases were closed in the second quarter:

Investigation of the Icelandic Competition Authority into lending terms

In March 2013, the Icelandic Competition Authority submitted to the Bank its preliminary assessment concerning certain preferential terms and conditions offered during 2004-2010 by Landsbanki Íslands hf. (now LBI ehf.) and subsequently by the Bank, in 2004 to 2010, to clients for retail banking services, in particular for household mortgage loans. In June 2013, the Bank gave its response and refuted allegations of a breach of competition rules. In September 2015, the Bank and the Authority entered into discussions on the resolution of the case. On 29 May 2017 the Bank and the Competition Authority concluded a settlement regarding measures to strengthen competition in general retail banking services to individuals and small undertakings, cf. Decision No. 22/2017 of 12 June 2017. Pursuant to the settlement the case has been closed.

Claim for damages by a payment card company

In June 2013, a payment card company commenced litigation against the Bank and certain other financial undertakings claiming tort liability in the amount of around ISK 1.2 billion, plus interest. The plaintiff argued that the defendants were liable in tort for alleged violation of competition rules. The Bank refuted the allegations and the claims. On 29 March 2017 the District Court of Reykjavik considered the plaintiff's claims to be insufficiently substantiated and dismissed the case. The plaintiff appealed the decision to the Supreme Court. On 1 June 2017 the Supreme Court confirmed the decision of the District Court.

32. Interest in subsidiaries

The main subsidiaries held directly or indirectly by the Group as at 30 June 2017 were as detailed in the table below. This includes those subsidiaries that are most significant in the context of the Group's business.

Main subsidiaries as at 30 June 2017

Company	Ownership interest	Activity
Eignarhaldsfélag Landsbankans ehf. (Iceland)	100%	Holding company
Landsbréf hf. (Iceland)	100%	Management company for mutual funds
Hömlur ehf. (Iceland)*	100%	Holding company

*Hömlur ehf. is a parent of a number of subsidiaries, which are neither individually nor combined significant in the context of the Group's business.

The Group does not have significant restrictions on its ability to access or use its assets and settle its liabilities other than those resulting from the supervisory framework. The Group did not have any material non-controlling interests as at 30 June 2017.

33. Related party transactions

Transactions with related parties

Transactions with the Icelandic government and government-related entities

The Group's products and services are offered to the Icelandic government and government-related entities in competition with other vendors and under generally accepted commercial terms. In a similar manner, the Bank and other Group entities purchase products and services from government-related entities at market price and otherwise under generally accepted commercial terms. The nature of and amounts outstanding with public entities are disclosed in Note 38, under Public entities.

In March 2016, the Icelandic State Treasury took over Íslandsbanki. Following the takeover, a settlement was reached with the Icelandic Competition Authority to the effect that both banks will continue to operate as independent competitors in the financial market. The takeover qualifies as a merger under Icelandic competition law, as the Icelandic State Treasury has control over the two banks as of the time of the takeover. The Bank has a traditional bank-to-bank relationship with Íslandsbanki under generally accepted commercial terms. The nature of and amounts outstanding with financial institutions, including Íslandsbanki, are disclosed in Note 38, under Financial institutions.

34. Events after the reporting period

No events have arisen after the reporting period of these financial statements that require amendments or additional disclosures in the Condensed Consolidated Financial Statements for the six months ended 30 June 2017.

Capital management

35. Capital requirements

The Group's capital management policies and practices ensure that the Group has sufficient capital to cover the risks associated with its activities on a consolidated basis. The capital management framework of the Group comprises four interdependent areas: capital assessment, risk appetite/capital target, capital planning, and reporting/monitoring. The Group regularly monitors and assesses its risk profile in key business areas on a consolidated basis and for the most important risk types. Risk appetite sets out the level of risk the Group is willing to take in pursuit of its business objectives.

The Group's capital requirements are defined in Icelandic law and regulations and by the Icelandic FME. The requirements are based on the European legal framework for capital requirements (CRD IV and CRR), implementing the Basel III capital framework. The regulatory minimum capital requirement under Pillar I of the Basel framework is 8% of risk-weighted assets (RWA) for credit risk, market risk and operational risk. In conformity with Pillar II A of the Basel framework, the Bank annually assesses its own capital needs through the Internal Capital Adequacy Assessment Process (ICAAP). The ICAAP results are subsequently reviewed by the FME in the Supervisory Review and Evaluation Process (SREP). The Group's minimum capital requirement, as determined by the FME, is the sum of Pillar I and Pillar II A requirements.

In addition to the minimum capital requirement, the Bank is required by law to maintain certain capital buffers determined by the FME, which may, depending on the situation, be based on recommendations from the Financial Stability Counsel.

The Group's most recent capital requirements, as determined by the FME, are as follows (as a percentage of RWA):

	SREP based on data from	
	31.12.2015	31.12.2014
Pillar I	8.0%	8.0%
Pillar II A	6.0%	6.3%
Minimum capital requirement	**14.0%**	**14.3%**
Systemic risk buffer	2.7%	3.0%
Capital buffer for systematically important institutions	2.0%	2.0%
Countercyclical capital buffer	0.9%	0.0%
Capital conservation buffer	2.5%	2.5%
Combined buffer requirement	**8.1%**	**7.5%**
Total capital requirement	**22.1%**	**21.8%**

The Bank's target for the Group's minimum total capital ratio is to maintain at all times a total capital ratio above the fully phased-in FME total capital requirement, in addition to a management capital buffer that is defined in the Bank's risk appetite. The Bank also aims to be in the highest category for risk-adjusted capital ratio, as determined and measured by the relevant credit rating agencies.

37. Leverage ratio

The following table shows the Group's leverage ratio as at 30 June 2017 and 31 December 2016. The requirements are based on the European legal framework for capital requirements (CRD IV and CRR) implementing the Basel III capital framework. Subject to Article 30(a) of Act No. 161/2002, on Financial Undertakings, a minimum leverage ratio of 3.0% is required.

38. Maximum exposure to credit risk and concentration by industry sectors

The following tables show the Group's maximum credit risk exposure as at 30 June 2017 and 31 December 2016. For on-balance sheet assets, the exposures set out below are based on net carrying amounts as reported in the Condensed Consolidated Interim Statement of Financial Position. Off-balance sheet amounts in the tables below are the maximum amounts the Group might have to pay for guarantees, loan commitments in their full amount, and undrawn overdraft and credit card facilities.

The Group uses the ISAT 08 industry classification for corporate customers.

39. Collateral and loan-to-value by industry sectors

The loan-to-value (LTV) ratio expresses the maximum exposure of credit risk (gross carrying amount of loans and off-balance sheet items) as a percentage of the total value of collateral. Loan-to-value is one of the key risk factors assessed when qualifying borrowers for a loan. The risk of default is always at the forefront of lending decisions, and the likelihood of a lender absorbing a loss in the foreclosure process increases as the collateral value decreases. A high LTV indicates that there are smaller buffers to protect against price falls or increases in the loan if repayments are not made and interest is added to the outstanding balance.

*If LTV is less than 100% the loan is considered fully secured. If LTV is greater than 100% the loan is partially collateralised and the respective collateral value is shown in the table.

All amounts are in ISK million

40. Collateral types

The following tables show the different types of collateral held by the Group against credit exposures. Residential property is the principal collateral held against loans to individuals. Construction projects and commercial property are the main real estate collateral held against loans to corporates. The collateral value amounts are assigned to claim value amounts. The value of each individual collateral item held can not exceed the maximum credit exposure of the corresponding individual claim. Changes in collateral value amounts between periods result either from changes in the underlying value of collateral or changes in the credit exposure.

47. Large exposures

As at 30 June 2017, two customer groups were rated as large exposures in accordance with rules on large exposures. Customers are rated as large exposures if their total obligations, or those of financially or administratively connected parties, exceed 10% of the Group's eligible capital. No exposure, after credit risk mitigation, may exceed 25% of the eligible capital. The following table shows the Group's large exposures after credit mitigation:

As at 30 June 2017	Number of large exposures	Large exposures
Large exposures between 10% and 20% of the Group's eligible capital	1	29,139

Liquidity risk

49. Liquidity risk management

As of 30 June 2017, the Group complies with the Central Bank's new rules on Liquidity Coverage Requirements, No. 266/2017, which supersede the previous rules from 2013, No. 1031/2014. The Group also complies with rules on funding foreign currencies, No. 1032/2014, and follows guidelines No. 2/2010 from the Icelandic Financial Supervisory Authority (FME), on best practice for managing liquidity in banking organisations. The liquidity rules require the Group to maintain a minimum total LCR of 100% and 100% for foreign currencies. The funding rules require a minimum of 100% NSFR in foreign currencies for year 2017. The Group submits monthly reports on its liquidity and funding position to the Central Bank of Iceland and the FME.

The key indicator of short-term liquidity risk is measured by the liquidity coverage ratio (LCR) which shows the ratio of high quality liquid assets to expected total net cash outflows over the next 30 days under a specified stress scenario. High quality liquid assets are comprised of cash at hand, balances with central banks, assets eligible for repo transactions with central banks and zero percent risk-weighted foreign government bonds. Estimated inflow and outflow weights, according to liquidity rules No. 266/2017, are applied to the total balance amount for each asset and liability group measured in the ratio, reflecting the next 30 calendar days. The estimated cash inflow that can offset estimated cash outflow is capped at 75% in order to prevent banks from over-relying on the inflow. Calculations of the ratio are shown in the following table:

Market risk

51. Market risk management

The following table summarises the Group's exposure to market risk as at 30 June 2017 and December 2016.

	30.6.2017	**31.12.2016**
Market risk factor	**% of RWA**	**% of RWA**

Total	**2.1%**	**2.0%**

The currency risk in the Groups trading portfolios is disclosed together with that in its non-trading portfolios in Notes 55-56.

52. Equity price risk

Equity price risk is the risk of equity value fluctuations due to open positions in equity-based instruments.

The Group's equity trading portfolio is comprised of proprietary trading positions and exposures due to market making, including equity derivatives and hedging positions, in listed ISK equities. The Group's non-trading portfolio contains listed and unlisted equities as part of asset and liability management. Further details are disclosed in Note 20.

53. Interest rate risk

The following tables summarise the Group's exposure to interest rate risk. The tables include interest-bearing financial assets and liabilities at their carrying amounts, while off-balance sheet amounts are the notional amounts of the derivative instruments, see Note 21. The amounts presented are categorised by the earlier of either the contractual repricing or the maturity date.

54. CPI indexation risk (all portfolios)

The consumer price index (CPI) indexation risk is the risk that the fair value or future cash flows of CPI-linked financial instruments may fluctuate due to changes in the Icelandic CPI. The Group has a considerable imbalance in its CPI-linked assets and liabilities. To mitigate this imbalance the Bank offers non-CPI-linked loans, CPI-linked deposits, CPI-linked secured bonds as well as CPI-linked interest rate swaps.

CPI indexation risk is managed centrally within the Group by Treasury, and is monitored by Market Risk. The following table summarizes the Group's CPI imbalance, calculated as the difference between CPI-linked financial assets and liabilities, as at 30 June 2017 and 31 December 2016.

55. Currency risk (all portfolios)

The Group follows Rules No. 950/2010, on Foreign Exchange Balances, as set by the Central Bank of Iceland. The Rules stipulate that an institution's foreign exchange balance (whether long or short) must always be within 15% of its capital base, in each currency and for all currencies combined. The Group submits daily and monthly reports to the Central Bank with information on its foreign exchange balance.

The Group's combined net foreign exchange balance as at 30 June 2017 was +0.64% of the Group's capital base (31.12.2016: +1.38%).

56. Concentration of currency risk

The following tables summarise the Group's exposure to currency risk as at 30 June 2017 and 31 December 2016. The off-balance sheet amounts shown are the notional amounts of the Group's derivative instruments.

Amounts presented under assets and liabilities include all spot deals as at 30 June 2017 and 31 December 2016. When managing currency risk the Group regards spot deals as non-derivative assets or liabilities.
