

All Weather Windows named ENERGY STAR® Canada Sustained Excellence Award Winner for 2018

Canadian company receives prestigious award for commitment to energy efficient products

EDMONTON, AB, (May 8, 2018) – All Weather Windows is thrilled to announce that we are the 2018 recipient of the ENERGY STAR Canada Sustained Excellence award for products. ENERGY STAR Canada recognizes one organization that has maintained or surpassed its ENERGY STAR commitment and accomplishments of the previous years. Nominations for this award are put forth by ENERGY STAR Canada to companies that have been active promoters of ENERGY STAR for at least five years.

Celebrating 40 years in business this year, this award represents All Weather Windows' commitment to the ENERGY STAR Canada program and the continuous improvement of our products. Energy efficiency is central to our strategy and our brand; in fact, 196,000 All Weather Window product models are ENERGY STAR certified. In 2017, we had an increase of 39% over the previous year in most efficient window models.

All Weather Windows President and CEO, Richard Scott says, "This award demonstrates not only our commitment as an organization to the ENERGY STAR Canada program but also our commitment to helping Canadians save energy, lowers costs and care for the environment. Behind every one of our ENERGY STAR labeled windows and doors is a product that has been tested and certified for optimum energy efficiency."

This year's winners of the ENERGY STAR Canada awards will be honoured at a ceremony in Ottawa on May 28, 2018, with Canada's Minister of Natural Resources, the Honourable Jim Carr. Minister Carr had this to say about the win: "Congratulations to All Weather Windows for supporting and promoting ENERGY STAR certified products. Improving energy efficiency contributes first-hand to reducing greenhouse gas emissions, and All Weather Windows' efforts are making it easier for Canadians to save energy and money while protecting the planet. We thank you for your ongoing commitment to improving the availability of energy efficient products in Canada."

The ENERGY STAR Canada awards recognize ENERGY STAR Participants in Canada that have demonstrated excellence in promoting the most energy-efficient products and new homes available on the market in Canada.

All Weather Windows is an active promoter of ENERGY STAR Canada and has been the recipient of 6 ENERGY STAR awards; including multiple year winner of Manufacturer of the Year for Windows and Doors.

About ENERGY STAR Canada

ENERGY STAR Canada is a 17-year-long energy efficiency success story. The program is a voluntary partnership between the Government of Canada and 1,500+ organizations working to use our natural resources more wisely through greater energy efficiency. Behind each ENERGY STAR label is a product, home, building or industrial facility that is independently certified to use less energy and cause fewer of the emissions that contribute to climate change. ENERGY STAR is Canada's simple choice to save energy, save money and save our environment. For more information about ENERGY STAR, visit www.energystar.gc.ca.
