

RYAH
You're in control

WORLD'S FIRST DOSE-MEASURING VAPORIZER

RYAH promises a high quality vaporizing experience that enables users to accurately track how much they inhale in order to deliver consistent and predictable results.

Precise | Predictable | Consistent | Safe

Features and Functions

LED Indicator

Keep track of your temperature, dose, and battery without needing to use your phone

QR Capsule

QR capsules make keeping track of each session and capsule a breeze

Safety Indicator

Know when the capsule is ready to be ejected

Diffused mouthpiece

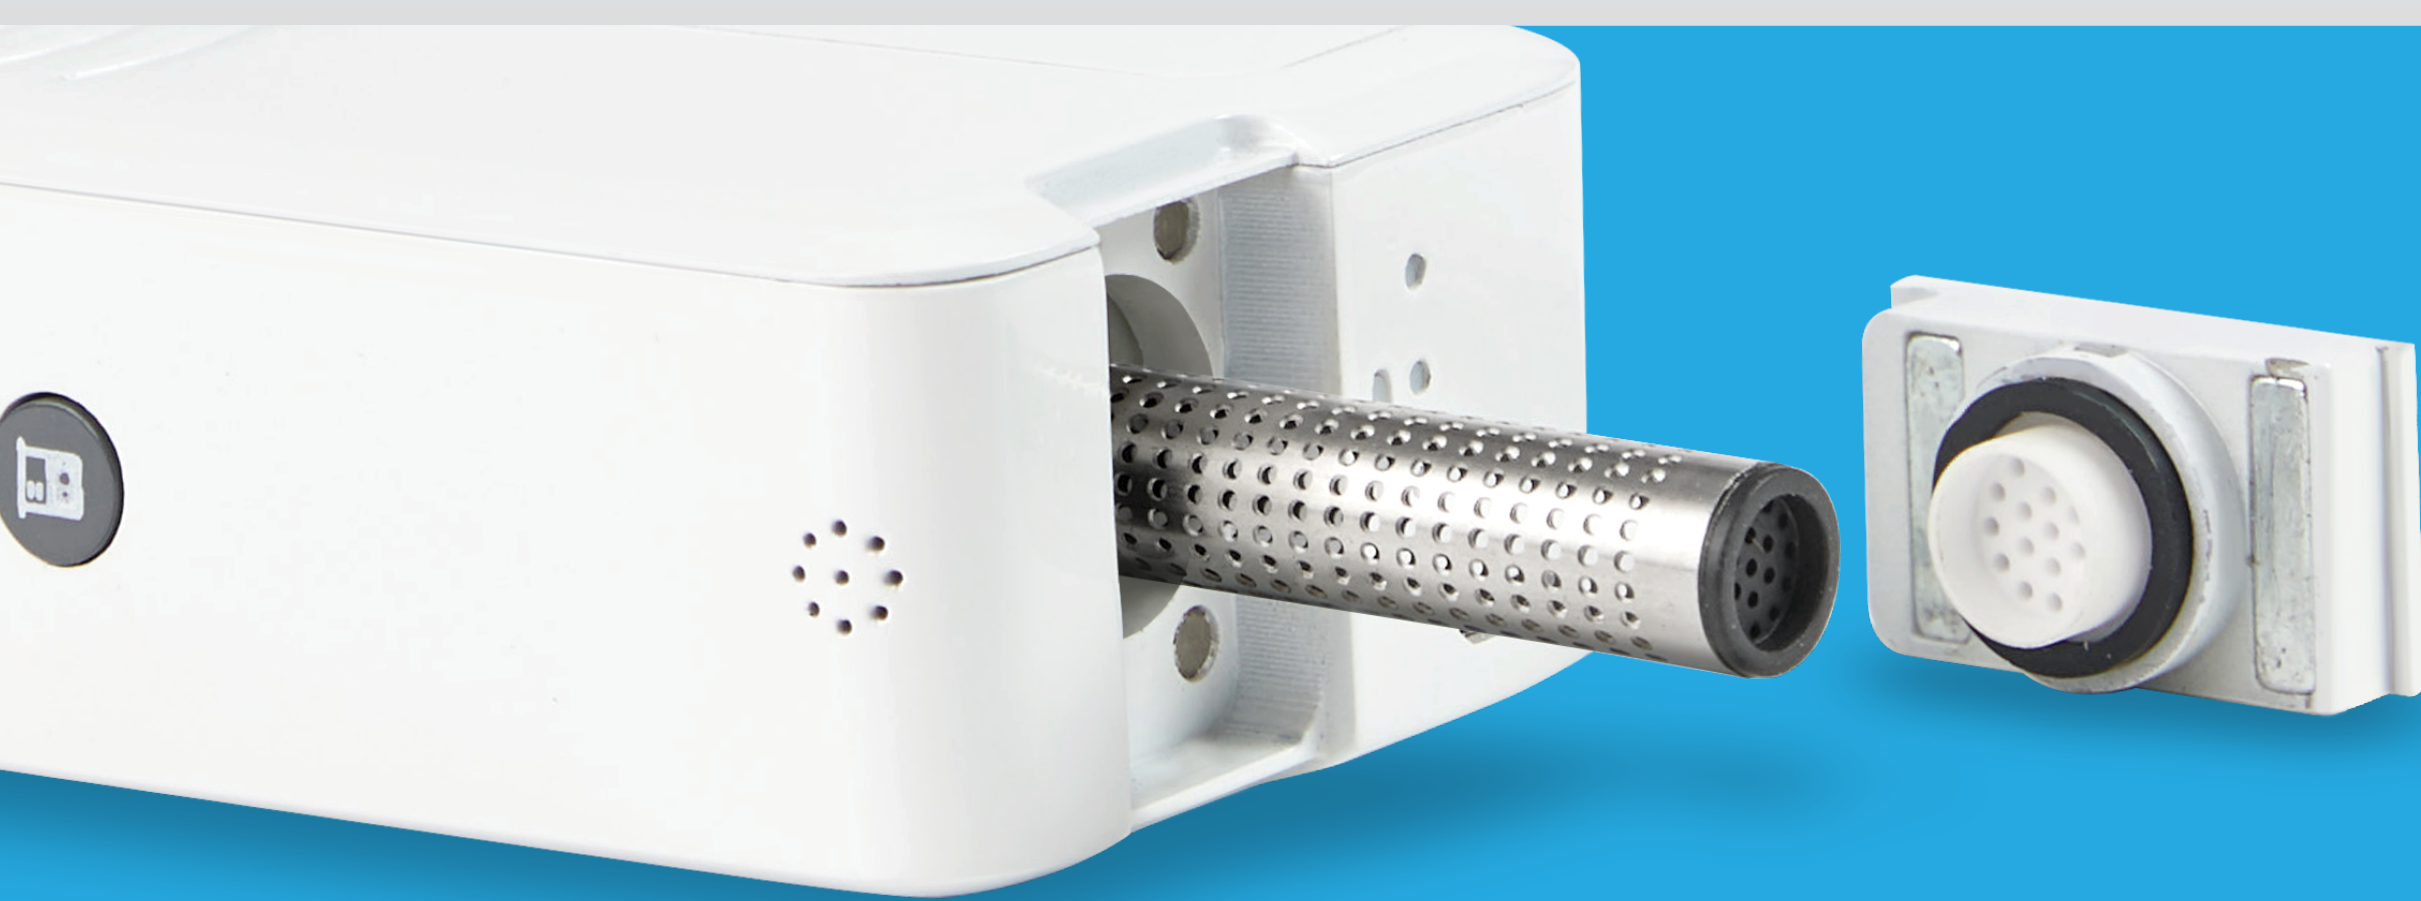

Lengthens the vapor travel to reduce heat, ensuring a smoother inhale

Straight vapor pathway

No twists and turns makes cleaning RYAH easy and convenient

Airflow sensor

Measures dose in 5 ml increments for precise results

Smart Capsules

- Disposable dry herb and oil capsules
- QR code for easy stat-tracking w/ app
- Even heat distribution for superior flavor and vapor quality

Accurate Dosing and Temperature Control

- Control your temperature by 1 degree increments
- Set a specific dose down to the ml
- Personalize your microdosing regimen
- Save the temperature and dose that worked best for you as a preset for future sessions

Insightful Statistics

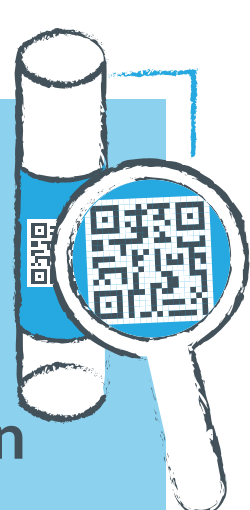

- Record the effects of each session
- Compare each capsule experience
- Understand the temperature and dose that works best for your needs
